How about the output from the following commands:

lsvg -l [vg in question]

lsvg -p [vg in question]

Subject: Re: Accidentally Removed a Volume Group

Jason,

That is what I am doing, and it worked until I ran the smit remove volume script.

Now I get these errors.

0516-066 lqueryvg: Physical volume is not a volume group member.

Check the physical volume name specified.

0516-066 lqueryvg: Physical volume is not a volume group member.

Check the physical volume name specified.

0516-562 redefinevg: Unable to access physical volume hdisk2

0516-780 importvg: Unable to import volume group from hdisk2.

Thanks for all help.

Bengt

Title says what I did. Does anybody have a suggestion as how to recover it. I am running AIX 4.3

Bengt
