Before acting on this e-mail or opening any attachments you are advised to read The Caudwell Holdings group of companies' disclaimer at the end of this e-mail.

Guys,

I thank all of you for your suggestions.

I would try the tool.

Cheers
Praveen.K

Subject: AW: install software

Hi

We make nearly all non installp-installable Software(.bff) a customized Package with the freeware tool "lppbuild".
The Readme file tells you all you need to know.

Uwe

Betreff: install software

Hi,

If I have a third party software which is not specifically designed for AIX (What I mean by saying this is, the file format of the installation files is not in bff format.), and I want to install and wish to see this file set

name in lspp output, how do I achieve this.

B'coz one of the system I have seen had a fileset that is customised for that server. The lspp output on the server,had the managed services company's name as the fileset name.

TIA
Praveen
