Hi,

I'm using it for about 5 weeks now and it works great.

Download it from: <http://www.bullfreeware.com/> <<http://www.bullfreeware.com/>>

How to install: http://www.bullfreeware.com/install_down.html

<http://www.bullfreeware.com/install_down.html>

In /var/adm/sys_mng you will find two config-files:

tidysys.conf and tidysys.files

This files are selfdescribing for you to change the config according to your needs.
