Look in /var/adm/ras for a syslog ? You would need to have configured it there.

```
du -kx /var|sort -nr|more
```

BV

---

There's no place like /home

Hello All,

Iâ€™ve got an AIX 4.3.3 box that is currently showing 100% use of inodes in

Re: inode problem

AIX-L: Re: inode problem

the /var filesystem. Any places to check right off for temp files or ways to gain some back? Thanks for any help.
