Thank you all for your replies. That was the fastest reply I ever saw on any list!

In summary my replies were: (for the archives)

Mathew Gipson: instfix -i | grep IY45672

Thomas Rupp: instfix -ivqk IY45672

Mark H. Moody: instfix -ik IY45672

Thanks again,

"Moody, Mark"

Subject: Easy one! APARS -vs- Filesets

Hello all,

How/Where can I determine which filesets are installed with what APARs? I wanted to see if I have APAR IY45672 installed on a node.

Thank you all in advance,

Drew
