Does lsof 4.75 work OK with lower versions of AIX, do you know?

I asked Vic Abell about a 5.3-version and helped testing after he sent it to me.

Meanwhile he put it on the ftp-server

<ftp://lsof.itap.purdue.edu/pub/tools/unix/lsof/binaries/aix/5.3/power/>

I'd still be interested if anybody has problems. I didnt find any problem.

I dont have xlc for 5.3 and as far as I know there isnt any gcc for 5.3 yet.
I didnt make it to compile it on 5.3 with a 5.2-gcc
