Hi

We are running into queueing problems:

I've updated the /var/adm/cron/queuedefs file with the following line:

a.500j60w

My file system has over 300 mbytes free

I am getting errors before I even reach 100 jobs:

attempting job 90

at: 0481-118 Cannot accept more jobs into the queue.

attempting job 91

at: 0481-118 Cannot accept more jobs into the queue.

attempting job 92

If anyone has any ideas on how to increase this limit please let me know.

Thanks

Sandro
