It works, but it's terribly slow (because of the distance between the server and my local box).

Am i using the good technology ?

Should I take a look at vnc ? FreenX ?

Best regards,

Cyril Aubineau

Cyril,

On the H80 AIX 4.3.3 system set "X11Forwarding yes" in sshd_config.
From linux ssh -X h80.host.

man ssh
man sshd

Frank
