VNC protocol is lighter than X11.  
It will probably be faster.

It works, but it's terribly slow (because of the distance between the server  
and my local box).

Am i using the good technology ?

Should I take a look at vnc ? FreenX ?

Best regards,

Cyril Aubineau

Cyril,

On the H80 AIX 4.3.3 system set "X11Forwarding yes" in sshd\_config.

From linux ssh -X h80.host.

man ssh

man sshd

Frank
