Link for the GA media

The DVD drive is very picky about which media works/doesn't work.

Here is an IBM link explaining which media was successfully used:

<http://www-03.ibm.com/support/techdocs/atsmastr.nsf/84279f6ed9ffde6f86256ccf00653ad3/b75a2f3717807e9d86256>

I also include a link that has more DVD info than most care to know:

<http://www.dvddemystified.com/dvdfaq.html#4.3>

I use the Maxell DVD-RAM 4.7GB single sided, rewriteable media
Part number 636070

Hi:

When running a smitty mkdvd on a p570 with an installed IBM Slimline DVD-RAM drive (FC 5157) I receive the error message

0512-399 mkcd: Unable to create UDF media

I am trying to burn to DVD-R. Does this device support this media?

Thanks.
