Try IBM fix central. The url that I use is as follows:

<http://www-912.ibm.com/eserver/support/fixes/fcgui.jsp>

There you have to specify a few things and then you can select specific APARs to download.

Subject: Newbie: how to get DST fixes from IBM

After 30 years as a sysprog, I find myself a virgin again. Its my first time trying to get an AIX PTF. How do I get the following fixes ?

- apar: IY82213 (ptf: U807267)
- apar: IY84054 (ptf: U807768)
- apar: IY85293 (ptf: U808557)

I found the PTF's associated with the Apars using IBMLINK, but SRD seems to have no option for electronic delivery, or download, only tape or CD which will take too much time. Is there some trick to this?
