In message <Pine.GSO.4.64.0711281651360.24547@xxxxxxxxxxxxxxx>, Daniel Eischen writes:

I think we should remove libthr.a, libkse.a and libc.a, so flame on!

I used to disagree, based on arguments about embedded systems.

I may be about to change my mind on this, but won't know for sure until I get my hands dirty with 7.x on embedded platforms.

I would suggest we put this question on the agenda for 8.x
