If we do decide to go ahead with the ABI change, there are a number of other things that should be done simultaneously, such as changing the uid and gid fields to uid_t and gid_t.

And mode to mode_t. The uid and gid fields in struct shmid_ds have already been converted, though the ones in struct ipc_perm are obsolete. At a quick glance, everything else is up to date.

<http://www.opengroup.org/onlinepubs/009695399/> is a useful reference in this area.
