I can provide you webhosting in Belgium,  
with good connection to the USA.

We run FreeBSD offcourse.

Kind regards,

welcome.

Also he needs:

- o disk space: 10GB;
- o PHP 4.1 or up;
- o MySQL 4 or up;
- o ZendOptimizer;
- o mail account less than  
100;
- o bandwidth is unknown so

far, but I think that 200–250  
GB will fit  
his needs.

PS. I'm aware of

I'd like  
to get a feedback from real  
customers...

Anybody?

I don't know about their 'regular' hosting, but I have two  
dedicated servers at:

<http://www.cihost.com>

The service has been good, the reliability great, and the cost  
was reasonable. The of course offer FreeBSD dedicated  
servers, but I know nothing about anything other than colo  
and dedicated servers. You could check their special deals –  
I've seen dedicated servers for \$29/mo.
