Yehonatan, good day.

Mon, Feb 25, 2008 at 11:28:12AM +0200, Yehonatan Yossef wrote:

I'm a freebsd newbie, trying to port an ethernet driver from Linux to FreeBSD 6.3.

I'm facing a system reboot upon loading of the driver, and I could use a tool for capturing dmesg upon system crash (such as netconsole on Linux).

May be serial console will help you?

http://www.freebsd.org/doc/en_US.ISO8859-1/books/handbook/serialconsole-setup.html

Out of curiosity: are you porting some InfiniBand drivers to FreeBSD?
