

freebsd-newbies: passwords optional?

passwords optional?

Source: <http://unix.derkeiler.com/Mailing-Lists/FreeBSD/newbies/2003-07/0030.html>

To: freebsd-newbies@freebsd.org

So I installed FreeBSD 5.1, used cvsup to get freebsd 5.1-current, recompiled, and now logging in locally doesn't require a password, for root or other users. Neither does su. ssh does. Is this normal or ... ?

Here's the output of 'uname -a'

```
FreeBSD yellow.setec.nu 5.1-CURRENT FreeBSD 5.1-CURRENT #0: Mon Jul 7
08:19:29 PDT 2003 matt@yellow.setec.nu:/usr/obj/usr/src/sys/MYKERNEL
i386
```

Thanks in advance,

Matt
