To: freebsd-newbies@freebsd.org

Compiling Rhythmbox (sudo portinstall rhythmbox) fails.

I'm not sure this list is the best to send this kind of problem.

If it is, then please tell me what I'm doing wrong.

If it isn't, please tell me to which list I should use

Thanks a lot.

More info:

FreeBSD: 5.3-RELEASE

make.conf excerpt:

```
CPUTYPE=p4
CFLAGS= -pipe -funroll-loops -O2 #-fno-unit-at-a-time
COPTFLAGS= -pipe -O2
```
