- 

Hello Guys,

I was able to use this command in 6.x

Now when I tried it it doesn't work in 7.0

```
sysctl kern.threads.max_groups_per_proc=40000
```

What do you recommend for tweaking MySQL server 5.0.41 with MyISAM db in Dual Xeon 2.8 GHz server with 2 GB of ram and 10k rpm wcd raptor HD?
