1. cvsup your source

http://www.freebsd.org/doc/en_US.ISO8859-1/books/handbook/cvsup.html

http://www.freebsd.org/doc/en_US.ISO8859-1/books/handbook/cvs-tags.html

2. rebuild your world/kernel

http://www.freebsd.org/doc/en_US.ISO8859-1/books/handbook/makeworld.html

That's all. You'll have to read those pages carefully, it's not very easy for the first time, but you'll get used to it very quickly.
