Hi, I had problem of pop up message during using the terminal of freebsd. I installed Freebsd 6.1 on AMD cup computer. there is pop up message during using the terminal. the messages like

"Apr 28 20:05:01 dhcppc1 login: ROOT LOGIN (root) ON ttyv0"

"Apr 28 21:52:53 dhcppc1 last message repeated 5 times"

I feel these message annoying because it disturbs me when I edit a doc using editor. please let me know how to turn these message off. thank you

tony
