umm....

not being an code worrier myself, I usually update my port tree first, then do a clean install (make clean; make install distclean) like that, then get down my keens and pray...:)

Yes, that would be great to install it, but there is a problem with it:
when building it says:

```
mount_fusefs.c:72: error: `MOPT_STDOPTS' undeclared here (not in a
function)
mount_fusefs.c:72: error: initializer element is not constant
mount_fusefs.c:72: error: (near initialization for `mopts[12]')
mount_fusefs.c:74: error: `MOPT_END' undeclared here (not in a function)
