Err., have you tried adding device pcm to the kernel and recompiling?

See the handbook

(http://www.freebsd.org/doc/en_US.ISO8859-1/books/handbook/sound-setup)

for details on this procedure.

You've not indicated exactly what problem you're having, so I've presumed that its just a case of not knowing how to add sound support with the specific card you have.

Hope this hslps some.

Regards,

Stacey
