FreeBSD 5.4-STABLE #11: Fri Apr 8 09:48:24 CDT 2005

karl@FS.denninger.net:/usr/obj/usr/src/sys/KSD-SMP

5:02PM up 80 days, 21:08, 1 user, load averages: 4.04, 3.33, 3.01

Yes, SMP is enabled, as is implied by the kernel config tag.

(Very busy compilation, web and database server)
