you probably know many scenarios that i – thankfully – am no aware of, but by creating the magic DEFAULTS file the problem still exists! What will prevent from Joe Shootmyfoot to comment out the lines in DEFAULTS?

by the way, by just looking at DEFAULTS, there is no warning of the concequences.

a line like:

**** DON'T TOUCH ANYTHING HERE UNLESS YOU REALY, REALY**

**** KNOW WHAT YOU ARE DOING**

might help.
