Hello,

I don't understand this error:

```
====> zlib (all)
cc -O2 -fno-strict-aliasing -pipe -march=pentium3 -Werror -D_KERNEL
-DKLD_MODULE -nostdinc -I- -DHAVE_KERNEL_OPTION_HEADERS -include
/FlashBSD/obj/i686/FlashBSD/src/sys/i686.intern-korso/opt_global.h -I. -I@
-I@/contrib/altq -I@/./include -finline-limit=8000 -fno-common -g
-I/FlashBSD/obj/i686/FlashBSD/src/sys/i686.intern-korso -mno-align-long-strings
-mpreferred-stack-boundary=2 -mno-mmx -mno-3dnow -mno-sse -mno-sse2
-ffreestanding -Wall -Wredundant-decls -Wnested-externs -Wstrict-prototypes
-Wmissing-prototypes -Wpointer-arith -Winline -Wcast-qual -fformat-extensions
-std=c99 -c /FlashBSD/src/sys/modules/zlib/../../net/zlib.c
ld -d -warn-common -r -d -o zlib.kld zlib.o
:> export_syms
awk -f /FlashBSD/src/sys/modules/zlib/../../conf/kmod_syms.awk zlib.kld
export_syms | xargs -J% objcopy % zlib.kld
ld -Bshareable -d -warn-common -o zlib.ko.debug zlib.kld
objcopy --strip-debug zlib.ko.debug zlib.ko
1 error
*** Error code 2
1 error
*** Error code 2
1 error
*** Error code 2
```

Any hints?

Rerun make without -j and discover the real error which was some distance back in the interleaved output from your parallel make command.

kris
