Dear Thomas,

Can you take a look at `src/sys/dev/ata/atapi-cam.c,v 1.42.2.3?`

With this revision of `atapi-cam.c` k3b application hangs on splash screen and

I had to use power button only to restart the machine.

This is observed with `RELENG_6` and recent k3b port. Other people had similar problems.

k3b starts fine with `atapi-cam.c` Revision 1.42.2.2.

thanks,

Ganbold
