To: hpux-admin@dutchworks.nl

On the CDE login screen in 11i, we have the normal "Welcome to <machine name>" and the text area to put in your username. But there is also the following between the greeting and the text entry area:
<machine name>:0.0 – Home example "lanikai:0.0 – Home"

The screen looks like:

Welcome to lanikai

lanikai:0.0 – Home

Please enter your user name

< text entry area >

We would like to get rid of that second line but I cannot find it in the Xresources file where the greeting gets set. Does anyone know where this gets set so I can edit it out?

Thanks
