Date: Mon, 15 Mar 2004 14:28:35 -0500

I have a large number of files that my macintosh people have created with special characters in the name examples:

1/4"-3/4"288A Flows-1.eps

2/valves

3 fig/sensor installation

3/4,1" 008QT Cutaway

I would like to change "/" and "," and " " to "\_" and remove the " from the name.

Does any one have any scripts that can handle the special characters?

Ty Muscat

Watts Regulator

815 Chestnut Street

North Andover, MA 01845

Phone: 978-689-6036

Fax: 978-689-6115
