and actually you can only mirror disks for free on 11i with VxVM if the disks are in vg00 else you have to pay \$\$ to mirror non-root volume group PVs

if you are using LVM (regardless of the OS version) then you need to pay \$\$ to get Mirror-UX

Subject: [HPADM] SUMMARY: Mirror-UX

Thanks to Mark Ahrendt, Justin Willoughby, and Thomas Leber. All said Mirror-UX is necessary to do any mirroring of LVM. Mark mentioned a caveat that VxVM includes Mirror-UX free on 11i--but not LVM.

Is Mirror-UX necessary to mirror a root disk, or can it be done without it?

HP-UX-Admin: [HPADM] RE: SUMMARY: Mirror-UX

I know Mirror-UX has a lot of functionality, but I don't know if it's necessary for performing a simple mirror.

Thnx,

Dave
